

## Mono wireless headset for helmet

SKU: TEEARSETMONOMOTOBTK

### Multipoint mono wireless headset with adjustable microphone and answer / end call key, IPX4 certified

#### THE SOUND YOU LOVE

This **wireless helmet headset** offers the safest and most practical way of answering incoming calls when you are travelling on a motorcycle. Keep your smartphone safe in your pocket or backpack and answer phone calls with a simple movement. You can also listen to navigation instructions or listen to music whilst you are on the road.

#### COMPONENTS

The receiver has a **practical attachment** to be positioned at the base of your helmet or on the collar of your biker suit. There are several keys: on/off, which also functions as the call answer/end key, number recall and music play/pause. There are two small buttons for lowering or increasing the volume as needed, or for changing music track.

The accessory is equipped with headphones for listening which is connected to the receiver via a cable. The adjustable microphone has **Anti Wind Noise technology**: this particular system guarantees the elimination of background noise due to the wind.

#### IN THE SADDLE OF INNOVATION

The **multipoint** technology will allow you to connect two devices to this headset at the same time, allowing you to manage calls from both smartphones.

Face sudden downpours without worries: this headset is IPX4 certified, meaning it is resistant to splashing.

#### FILL UP AND GET BACK ON THE ROAD

Once the charge level runs out, it is possible to charge the receiver through the USB-Micro USB cable included in the package. You will be able to get back in the saddle with a full tank of power.
