FREEDOM IN MUSIC

The **Spiritual** is a genre of great emotional impact, an expression of freedom and denial of coercion. These **wireless earphones** reflect the soul of this musical stream: versatile and rich in stylistic and technological contents.

TRANSVERSE MUSIC

The Spiritual stereo earphones have different facets, managing to adapt to more contexts of everyday life. The **flexible neck band** is designed for those who want to immerse themselves not only in music but also in passion for sport by practising outdoor activities. Thanks to its modern design and metal finishes, it looks great in contexts where perfection is necessary.

Comfort is guaranteed by the **three pairs of silicone earbuds** of different sizes (S, M, L) included in the package. Choose the ideal solution to fully enjoy your favourite songs.

THE ECO OF PERFORMANCE

These accessories stand out not only due to the excellent quality of sound but also due to the technical properties. The battery powers the device for a good **10 hours** in music playback mode, **9 hours** when they are used to answer calls. The multi-function keys, positioned on the neck band, allow full management of playlists and incoming and outgoing calls.

The Spirituals are **multipoint** earphones: you can pair two devices at the same time without having to repeatedly connect and disconnect them.

ENERGY FOR THE SPIRIT

Once these accessories run out of power, you can recharge them via the **Micro USB input** positioned on the neck band. Charging cable included in the box.
